

MORGAN

YOUR SAFETY IS OUR PRIORITY!

Included below are the guidelines we have implemented at Taste Morgan to make your tasting experience as safe and relaxing as possible. We hope this will make your decision to visit us an easy one!

- Guests are asked to wear a mask unless comfortably seated. We also ask that guests wear a mask while being served by our team.
- We ask that guests maintain social distance from those outside of their party at all times.
- We have lowered our capacity and arranged our furniture to ensure seating adheres to social distancing. Outdoor seating is available.
- At this time, we may only host groups of up to 6 people.
- Hand sanitizing stations are available for your use.
- We will provide single-use spittoon cups and menus for each party.
- Surfaces will be cleaned and sanitized between each reservation and routinely throughout the day.
- Our team will wear a face mask at all times, and routinely wash hands and use hand sanitizer.
- Please no outside food. This will help maintain a sanitary environment for all our guests.

**We appreciate your help in maintaining a safe environment for our guests and team.
We look forward to hosting you!**

Cheers!

Team Morgan
